C. A. BOUTELLE, EDITOR.

All business letters should be addressed to Routelle & Burr, and communications intended for publication should be addressed "Editor of the Wise and Courier."

TUESDAY, DECEMBER 7, 1886

The suit of the Administration against the Bell telephone patent has already cost the Government about \$50,000.

We wonder who the President means by the impracticable friends of civil service reform? Is it a quiet rap at the Mowbrays who have been boasting that they were on the box driving this Administration?

General Mahone declares that "what every vote cast in Virginia can be honestly counted, the state will show a Republican majority of 40,000." There can be no doubt about the exact truth of this assertion. The South is still kept solid by fraud and violence.

"What has become of the investigation of Postmaster Harry of Philadelphia?" It looks as though Commissioner Edgerton had converted the other members of the commission to his way of thinking, namely that it is no part of their duty to investigate Democratic officials.

Now that the Democratic heads of departments have acquired some little knowledge of their work, it is said that there will be numerous changes among the force of clerks, the Republicans going out to make room for the still hungry hordes of Democratic applicants.

President Cleveland thinks that civil service reform is the bed rock of American institutions although it may be betrayed by its alleged friends. Whatever his views on the subject of reform may be, the fact remains that Mr. Cleveland has done more than any other man to degrade it in the eyes of the people.

The Statutes declare that the public printer must be a "practical printer" and that his desk is to be his own successor upon the next National Democratic ticket, and there seems at this moment no reason to doubt that he will be, it does not seem for the party and its probable candidate to look the situation squarely in the face and to ask whether under existing conditions, a nomination is likely to be equivalent to an election. In our opinion, the answer which thoughtful and far-sighted people would give to such an inquiry must in the nature of the case be an emphatic no. On the contrary, if there is not a considerable majority of Democratic forces the chances will be decidedly against us, and as we mount the hill and begin to descend the downward grade of the electoral period it should be the duty of every Democrat who has the interest and figure of his party at heart to speak out in meeting and to contribute his best to the general reservoir of information.

As an evidence of the reforming forces of this Adminstration it is noted that although Mr. Cleveland's term is not yet through, yet there are now not so many Republicans left in the Federal offices in California as there were Democrats after twenty-five years of Republican rule. It is not true that all of them will doubtless be out of the country before the other half of his term expires.

In Congress Mr. Washburn, of Minnesota, while in New York said that the recent downing of the Republican majority in his State this year had no political significance whatever. The Republican canvass was badly managed and local causes contributed to the result. The Farmers' Alliance party, which supported the Democratic ticket was not a permanent organization. The low price of wheat and high flour rates brought it into existence. There was no doubt in Mr. Washburn's mind that his friends were altogether too hasty in their judgment.

It is thought the thought would give the public an adequate for President 40,000 in money in 1888.

The Democratic members of the Grand Jury in Indiana voted against bringing in my indictment in the election cases. They found plenty of evidence of fraud in the returns, but were unable to settle upon the guilty party. This is a severe reflection upon the Democratic District Attorney who had the case in charge as though it were representative of the Government. With returns showing indisputable evidence of fraud it is a little singular that a sharp lawyer like Mr. Purple should be up to fix the crime upon some one. He defended the notorious Mackin and had defended the same in unearthing fraud that he did in trying to protect it, it is hard to believe the Grand Jury would have in various findings an indictment.

The general verdict of the press is that the present disposition of the office of Commissioner of Navigation upsets every claim to a broad base. The lawyers, however, this important office provide many other things than all questions of interpretation growing out of the execution of laws relating to various features of the department. The decision of the Commissioner shall be final, and that he shall also investigate the operations of the law relating to navigation, and annually report to the Secretary of the Treasury such particulars as may in his judgment, admit of important or may require, in his opinion, Charles B. Morton giving a "final" decision on matters of maritime law, or investigating and recommending improvements in the same will be one of the most interesting features of a very unusual Administration. With Morton as Commissioner of Navigation and Pendleton Dunn, of the great seafaring state of Arkansas, at the head of the House Committee on Shipping, who in doubt the brilliant future of the American merchant marine? It is reported from Washington that the Senate Committee on Commerce will give this nomination careful scrutiny when it comes to a vote.

The general verdict of the press is that the present disposition of the office of Commissioner of Navigation upsets every claim to a broad base. The lawyers, however, this important office provide many other things than all questions of interpretation growing out of the execution of laws relating to various features of the department. Pleasant Time in Corinth.

Regular Correspondence of Wits and Curiosities.

One of the largest and most enthusiastic gatherings of the season was that at the Town Hall, a short time since, on the invitation of Mr. and Mrs. J. W. Stickney, a highly respected couple of this town, the occasion being the thirtieth anniversary of their wedded life. Two brothers of the bride came from Massachusetts to attend the wedding; others came from long distances in the State, while other relatives and friends sent presents and good wishes from distant States. The company numbered fully two hundred, was in a happy mood and bound to have a glorious time; this laudable desire being seconded by the host and hostess, success could but crown their efforts, as indeed it did to their heart's content. Miss May Drummond, and her corps of lady ushers, received the presents and tastefully arranged them upon the table, and beside it on the stage, making a beautiful display. Mr. A. D. Drummond acted as master of ceremonies, and at about eight o'clock called the company to order when the Rev. Mr. Lockheart offered prayer. Rev. Sewall Brown was then called upon and responded in a few words appropriate to the occasion after which, by desire of the company, Mr. Lockheart, in an excellent speech, replete with love and good-will, presented the beautiful tokens of friendship to the happy couple, the bridegroom responding in a most feeling and happy manner in behalf of the bride and himself, and was loudly applauded for his finish. Short, congratulatory speeches were then pronounced to be in order, and were indulged by both sexes, for about half an hour when they were suddenly cut short by the announcement of supper; at the sound of which, the company repaired to the banqueting hall above, where an excellent oyster and pastry supper had been prepared by the host and hostess; and when all had abundantly satisfied the cravings of the inner man, returned to the hall below, ready to march to the inspiring music of Corinth Cornet Band, which had been in attendance all the evening, and added greatly to its pleasure, as did the beautiful song of Miss Katen.

The value of the presents, all told, I am informed, is one hundred dollars. The company separated at eleven o'clock, voting it the most happy and pleasant occasion of the season, and wishing Mr. and Mrs. Stickney all happiness, prosperity and a good life.

STATE NEWS.

Androscoggin. The Methodist society of Leeds and Gorham have lifted the debt from their parsonage, which was bought out by one year ago.

The Lewiston city government has adopted a new fire-tax, the same kind that is used in Bangor and in every city and town in Massachusetts. It works with a town, and every ballot is marked as it goes.

It is stated on good authority, says the Lewiston Journal, that one of the dwellings was ever burnt in the town of Gorham. This was a big house, that stood on the spot where the brick house of Mr. Donnell now stands. It happened about seventy-five years ago. The man and his wife went to a neighbor's house one evening, leaving three children locked in the house. When they returned they saw their house in flames. The children and house were burnt together.

ARMONK.

The simple suit of H. Stevens & Sons at Fort Fairfield, is to be lighted by electricity, and the two men will be sent across the river to light their house for sorting lumber in the spring, at a cost of over \$1,000.

Cumberland.

Gov. Robie and his Council on their return from their trip to the State Prison this week will visit the State Reforms School.

The two men comprising the crew of the steamer Superior of Portland, who were supposed to have been safe with their vessel, last week escaped in their boat. Stevens & Edwards of Bingham, have bought and shipped 3,500 barrels of Jaid with them. They were procured chiefly in Oxford county, and are consigned to Lancashire & Brothers, Portland, who send them to Liverpool.

Public notice has been given in the Legislature, by H. L. M. Sweet and others, that they will ask that body to grant a bill to a company, to construct a bridge across Mill Creek, Cape Elizabeth from the Munsey farm to the Dry Dock property.

Carey, the insane man, who took possession of the office of the Peabody House, Portland, several nights ago, and snatched forty dollars worth of property about two days ago, was sent to the insane hospital at Augusta, Saturday. The man has been confined there and at the same time before. When in confinement at the insane house some time ago, he broke his iron chain and a large piece of that article of furniture refused to allow anyone to enter his cell until he was subdued by a stream of cold water.

Mrs. Mary O'Connor, a middle-aged woman employed as a domestic in the family of Mr. Fred Boucher, at Merrill's Corner, has been troubled with a severe attack of rheumatism, as the result of not returning to her home. She has been confined there and at the same time before.

When in confinement at the insane house some time ago, he broke his iron chain and a large piece of that article of furniture refused to allow anyone to enter his cell until he was subdued by a stream of cold water.

Franklin.

Under the leadership of Rev. A. Prector, the Free Baptist church at Franklin has grown to a flourishing state. The membership has been increased from a half dozen to seventy-four, and the church is in a prosperous condition. A lively interest is shown in public and social meetings.
